(Robert Lee Castleman, Melanie Castleman)

Some folks moan when things go wrong  
But hey not me  
Me I'll be on the sunny side that's the place to be  
In my life  
Cause it's my life, even if it's out of control

There ain't no stoppin' my do-woppin' all night long  
By request I'm at my best when the pressure's on  
In my life  
Cause it's my life, even if it's out of control

Every dark cloud has a silver lining  
Every little tear leaves a sparkle in my eye  
And someday soon in a rubber room  
I'll finally figure out how to get it right

My opinion may not count but that's all I got  
The world keeps spinning round and round  
No matter what  
In my life  
Cause it's my life, even if it's out of control
