Moments, comments
Then one thing that you said
Did it again
Turned our world upside down again
I surprised you
I surprised myself
Is this what we need.

I don't wanna stop
I can do this, I am ready I know I can do this
I don't really wanna stop this
I can love you like no other, I can
Ready for love, I feel fine
I feel just fine
Do I ask too much.

Rebounded, founded
What I hope is missing in me
I'll admit this is new to me
Did I catch you at a bad time
Do I ask too much.
I don't wanna stop
I can do this, I am ready I know I can do this
I don't really wanna stop this
I can love you like no other, I can
Ready for love, I feel fine
I feel just fine
Ready for love.

I surprised you
I surprised myself
Is this what we need.

I don't wanna stop
I can do this, I am ready I know I can do this
I don't really wanna stop this
I can love you like no other, I can
Ready for love, I feel fine
I feel just fine
Ready for love.
