How can meant to be

Turn into a memory

When just yesterday

We said love was here to stay

How does love so strong

Go from right to wrong

We don't have to share this fate

There's another road to take

It's not too late

Chorus

There's no sunshine anymore

Now that you walked out my door

And I can't go on

If we can't be together

Just the rain

'Till you take me back again

But if I have to wait forever

Forever, I'll wait forever

I lay in the dark

Wondering where you are

Can't help imagining

Baby, what you're doing

Tell me what you need

And I will give it gladly

Just to know it's not the end

It's not the end

Chorus

There's no sunshine anymore

Just the rain

'Till you take me back again

But if I have to wait forever

Forever, I'll wait forever

Baby, I know you told me

The seasons have to change

But you know they always

Will come back again

But baby if that's what it takes

For our love to grow

I'll wait for you baby (yes I will)

Just don't leave me here alone

Chorus

I will stand out the rain

'Till you take me back again

And if I have to

I'll wait for you, forever
