It was only last night

When noticed something wasn't write

Then she looked in to my eyes

Left me wondering

Feeling like

Such a fool

This can't be true

Why is this happening to me

I really want you like you can't believe

I guess I'm gonna play the game

So before you go

There's something you should've known

Chorus

I've been thinking

That you should be mine

Even though you got a man, I'm sure you can

Tell him goodbye

I've been thinking

That you should be mine

Even though you got a man, I'm sure you can

Tell him goodbye

I keep on trying to forget

Sometimes I wish that we had never met

I wouldn't know how to explain

'Cause there's no excuse for loving you

There's so much I could lose

'Cause there's no easy way

It's not my place to make you wanna say

But I know you want me to

Are you ready now

It's up to you

What do you wanna do

Chorus

So now that we both understand

What's really going on

Make no mistake girl

Say what you really want

Don't be afraid of what you feel

'Cause I'll be here for you

But you gotta let him know

It's time that he should go

If you want me girl, you gotta show me

Chorus
