[[Chorusx2]]

I don't wanna fight no more
Why are we wastin' our time?
We makin' somthing outta' nothin'
And we don't even know why
I just wanna be wit you shawty
(Just wanna be wit you)
There ain't no need to argue

Lil mama let's forget about the fightin' and fussin'
I could remember when I met you we was kissin' and
huggin'
We wasn't worrie 'bout if I came home a bit late
I ain't doin' nothin'
cheatin' ain't on no date
You my one and only
So why we wastin' all our time?
Bickerin' and arguin',
What are we hopin' to find?
We makin' problems outta' nothing,
girl let's stop all the nonsense
We in love, let's make up
'Cause things ain't makin' no sense
I know we human,
we ain't perfect, but we take it too far
We only here a short time,
so let's make it less hard
There's other thangs' to deal wit,
No need fot conflict
Baby girl I wanna love ya,
not make ya sick
So I promise ya,
this ain't gon' be no arguments
Girl I'm givin' you my trust
No more gettin' jealous
So let's focus on us and get thangs the way they was
You my everything
Shawty, wit you, it's more than love

[[Chorusx2]]

Why are we wastin' our time?
We could be makin' love
Girl, I don't wanna fight
So how about us makin' it up?
(Oh Baby)
So how 'bout it Baby?
Let's not play all these games
I know our feelings the same,
so let's avoid all the pain
We beatin 'round the bush
actin' like we don't even care
Tryin' to see if one another gon' leave,
or stay here
I swear, so many people waste their lives and regret
Loosin' the one they love
But it ain't too late yet
For us, so I'ma tell ya how I feel everyday
Girl you my shawty till' I die
I ain't neva gon' stray
I know you sick and tired of suppressin' your feelings
'Cause you scared of gettin' too close but that's silly
'Cause I'm down,
I ain't leavin',
Yea I made some bad moves
I thought that you was creepin'
But I shouldn't assume
That's the problem right there
We gotta' remain honest
So from now on it's nothin' but the truth and that's a
promise
'Cause Baby I wouldn't trade you,
You my heaven on earth
No more wastin' time puttin' you second,
you comin' first
