CHORUS:

I don't wanna fight no more
Why are we wastin our time
We makin somethin outta nothin
And we don't even know why

I just wanna be wit you shawty
[jus wanna be wit you]
There aint no need to argue

I don't wanna fight no more
Why are we wastin our time
We makin somethin outta nothin
And we don't even know why

I just wanna be wit you shawty
[aint no need to fight]
There aint no need to argue

VERSE 1:

Lil momma lets forget about the fightin & fussin
I could remember when i met you we was kissin &
huggin
We wasn't worried 'bout if i came home a bit late
I aint doin' nothin, girl i aint cheatin, aint on no date

You my one and only, so why we wastin' all our time
Bickerin' and arguin', what are we hopin' to find?
We makin' problems outta nothin, girl lets stop all the
nonsense
We in love, lets make up, 'cause thangs aint makin no
sense

I know we human, we aint perfect, but we take it too far
We only here a short time so lets make it less hard
There's other thangs to deal wit, no need for conflict
Baby girl i wanna love ya, not make ya sick

So i promise ya this aint goin be no arguments
Girl i'm givin you my trust, no more gettin' jealous

So lets, focus on us and get thangs the way they was

You my everything shawty, wit you, it's more than love

BREAKDOWN:

Why are we wastin our time?

We could be makin love

Girl, i don't wanna fight

So how about us makin up

[oh baby]

VERSE 2:

So how bout it baby? lets not play all these games

I know our feelings are the same so lets avoid all the pain

We beatin 'round the bush actin' like we don't even care

Tryin to see if one another goin leave, or stay here

I swear, so many people waste they lives and regret

Losin' the ones they love but it aint too late yet

For us, so im'a tell ya how I feel everyday

Girl you my shawty til I die, I aint neva goin stray

I know you sick & tired of suppressin' your feelings
'cause you scared of gettin way too close, but that's silly

'cause I'm down, I aint leavin, yea I made some bad moves

I thought that you was creepin', but I shouldn't assume

That's the problem right there, we gotta remain honest

So from now on it's nothin' but the truth and that's a promise

'cause baby I wouldn't trade you, you my heaven on earth

No more wastin' time puttin' you second, you comin' first
