Feat. J. Cash

Just gotta listen to my heart
But I keep on ending up right back in the start
I see the finish line
But something always in the way
But I gotta keep grinding 'cause I'll reach it one day
Sometimes you wonder if this fight is worthwhile.
The precious moments are all lost in the tide
Listen to your heart
Just gotta listen to my heart
But I keep on ending up right back in the start
I see the finish line
But something always in the way
But I gotta keep grinding 'cause I'll reach it one day
When things seem impossible
You gotta realize anything is possible

So
Keep grinding
Listen to your heart
Yeah, yeah,
Uuhh...

Been in the game for years
Good times & plenty tears
I done seen it all
Pure hate
To stand in cheers
Yea it's a long road
Anything worth sumthin izthought of quittin
Yea I have
But I aint the type to quit
I'm from a region
That was over looked for too long
So my struggle's that much harder
Thank I'm leavin
Boy ya wrong
I gotta fanbase
And I aint even on a label
I'm pushin units
Make bread right under the table

Now what that tell ya
Tha south aint even close to fihished
We got talent
And we grind so this aint ever ending
So all my partners in the O
If u tryna make it
Jus keep grindin
Cuz ours for the takin
Sometimes you wonder if this fight is worthwhile.
The precious moments are all lost in the tide
Just gotta listen to my heart
But I keep on ending up right back in the start
I see the finish line
But something always in the way
But I gotta keep grinding 'cause I'll reach it one day
You gotta listen to your heart if you got some.
Gotta give it all if you really want something.
Ya can't hold back, gotta go full on.
And if ya fail then that don't make you a fool dogg.
It aint easy, believe me, I know you know me.
I came from nuttin to sumtin and I keep growing.
Not just from flowin, but homie from my life too.
Make something of yourself, be a man, get it right
dude.
The fast money, the cash money, it sound cool.
But where ya gonna go when you don't finish high
school?
Now I aint trying say don't get your hustle on.
If you do, that's cool, but it's a struggle dogg.
So make the smart choices, try to do what seems best.
This a test so live for you homie bump the rest.
Look out for number one, and when it's hard to smile.
Remember all along the fight is always worth the while
Sometimes you wonder if this fight is worthwhile.
The precious moments are all lost in the tide
Just gotta listen to my heart
But I keep on ending up right back in the start
I see the finish line
But something always in the way
But I gotta keep grinding 'cause I'll reach it one day

When things seem impossible
You gotta realize anything is possible

So
Keep grinding just
Listen to your heart
