Stumbling and falling  
Through fail as I can be  
Iâ€™m rising and running  
To be where I can be

### Refrain

I know your hand will gently guide me  
Cause you will always care  
No matter where the road will lead me  
I know that youâ€™ll be there

### Chorus

So I set my eyes  
To finally reach my destiny  
Through my lonely nights  
Your love will always shine on me  
Every path I take  
Every step I make  
Will lead me closer

Close to where you are

No fumbling and falling  
Can take the price from me  
Iâ€™m rising and flying  
To be where I should be

### Refrain

I know the wind will gently guide me  
To a place I donâ€™t know where  
No matter where the road will lead me  
I know that youâ€™ll be there

### Chorus

### Bridge

Through the pain and all the sorrow  
Love will guide me through tomorrow

### Chorus
