Caught in the crack between
The light and the darkside
Feel like a fool can't move 'cause I'm mesmerized
You release me from my self-destruction
But this good is evil in disguise

I want you more than I like
When I cross that line

Standing in your blacklight
Makes me feel like I'm blind
Am I ever gonna see the way

Standing in you blacklight
Sets my soul on fire
And I'm never gonna see the way

With your porcelain skin and your velvet hair
I see a goddess when I should see the killer there
It's a fine line between love and insanity
Baby I, baby I think that I might

I want you more than I like
When I cross that line

Standing in your blacklight
Makes me feel like I'm blind
Am I ever gonna see the way

Standing in you blacklight
Sets my soul on fire
And I'm never gonna see the way

You're good in a bad way
Between you black and your white
Leaving me in a grey confusion
I would rather be blind and burned
And burned

Standing in your blacklight
Makes me feel like I'm blind

Am I ever gonna see the way

Standing in you blacklight
Sets my soul on fire
And I'm never gonna see the way

Standing in your blacklight
Makes me feel like I'm blind
Am I ever gonna see the way

Standing in you blacklight
Sets my soul on fire
And I'm never gonna see the way
