He met her at work,
Workin' for the boys
Showin' off her fancy toys
He was a front row jo'
Talkin' in a peep show again
Couldn't take his eyes
Off of the prize
'cause her fries had been super-sized
She looked at his gaze
Amazed, she's found her man
He's got this fascination
Anything to do with the wheels and flesh
He's got the fascination
Diva left him skin deap dreamin'
He's got the fascination
Anything to do woth forein
He's got the fascination
Diva left him skin deap dreamin'
He said...
Hey there, lovely, can you
Hear my 455 a-callin' ?
These wheels can't turn alone
She jumped right in
Fell hard
Fell in love with his
Boyish grin
Took her from a spin and a sin
Then he drove her home
