So far your life has been a circus  
Hiding when you'r hurt and nervous  
Where did you go?  
You always find yourself untying  
Letting fate do your deciding  
Like you don't know

Life carries on sing your song  
Find the love that you had for you  
Right or wrong sing your song  
And just walk on

With your life in front of you  
With your life in front of you  
Time to find nothing to lose  
With your life in front of you  
With your life in front of you  
Don't wait for time 'cause  
Time won't wait for you

Dripped by your own convictions  
A history of bad preditions  
Is haunting you  
If life don't go the way you planned it  
You don't need to understand it  
Just follow through

Life carries on sing your song  
Find the love that you had for you  
Right or wrong sing your song  
And just walk on

With your life in front of you  
With your life in front of you  
Time to find nothing to lose  
With your life in front of you  
With your life in front of you  
Don't wait for time 'cause  
Time won't wait for

All your dreams and all your shemes

Are waiting there in front of you  
The door is open wide just walk on  
If you lie here, you will die here  
The door is open wide just walk on  
Through it all, with your life  
With your life in front of you

With your life in front of you  
With your life in front of you  
Time to find nothing to lose  
With your life in front of you  
With your life in front of you  
Don't wait for time 'cause  
Time won't wait for
