"Let It Ride"

What a ride this life is
What a rush when it's burning down
Lik you're the only one left alive
In this ghost town

When it all comes crashing
When your dreams have come undone
(it) Gets hard to recognize
What you've become

Where is the road that takes you home?
When will you finally let it show?

Everybody hurts
Everybody falls
Everybody breaks down sometimes
Everybody knows listen to your soul
Let it roll and let it ride
Let it ride by

What a bitch this life is
Digs her heels right to the bone
With her pretty smile leaves you
Bleeding on your own

Where is the road that takes you home?
When will you learn to let it go?

Everybody hurts
Everybody falls
Everybody breaks down sometimes
Everybody knows listen to your soul
Let it roll and let it ride
Let it ride

When you're looking for the sun
Hoping that it shines
Before you lose all sense of reason
Looking for the road
Shadows turn to cold
To get you home

Everybody hurts
Everybodyfalls
Everybody breaks down sometimes
Everybody knows listen to your soul
Letit roll and let it ride
Let it ride
