"Something Beautiful"

Visit "[Something Beautiful](#)" on MotoLyrics.com

You make me feel
Something beautiful
You make me feel
Something real
You make me feel
Something beautiful
And you make me
Make me
Make me
Come alive

Tonight I turned on my tv
There was so much craziness
I felt like "what's the use"
It's easy to be cynical
In a world with so much pain
But you believe in miracles
You believe
You believe

You make me feel
Something beautiful
You make me feel
Something real
You make me feel
Something beautiful
And you make me
Make me
Make me
Come alive
And you make me
Make me
Make me
Come alive

When every little thing I do
Seems like it's meaningless
And my Sould becomes consumed
With doubt and emptiness
You know just how to touche me
You raise me from dead

Ooh the way you love me, love me
I believe, I believe

You make me feel
Something beautiful
You make me feel
Something real
You make me feel
Something beautiful
And you make me
Make me
Make me
Come alive
And you make me
Make me
Make me
Come alive

I just don't know how I would live
In a world without your love
I need your love

You make me feel
Something beautiful
You make me feel
Something real
You make me feel
Something beautiful
And you make me
Make me
Make me
Come alive
And you make me
Make me
Make me
Come alive
