Your eyes connected to my thoughts
Disconnect my brain
Cause it's such a cold stone
Never be the same
Get over here
Closer to my skin
Gonna disappear
Yes I'm gonna breathe you in

â€¦ across your back
The tide is coming in
â€¦ your lap
and I'm surfing to your sin
Disconnect my brain
Baby stop your game
Disconnect my brain
You got no chain

When you supersexme
supersexme
oh talk to me sex bliss â€¦
Filthy dirty don't you leave that nothing baby

Your hips connected to my lips
Melt into my mouth
Intoxicated kiss under a star without a doubt
No you need your fix
Get ready for my
Disconnect my brain
You got no shame

when you supersexme
Supersexme
Oh talk to me sex bliss â€¦
Filthy dirty don't you leave that nothing baby

When you supersexme
Supersexme
Oh talk to me sex bliss â€¦
Filthy dirty don't you leave that nothing baby

Not the same culture (?) and chic
But those tattoos of â€¦ and zebras
Moonbeams across your fairytale
Seem so inviting to me

Your eyes connected to my thoughts
Disconnect my brain
Cause it's such a cold stone
Never be the same
Get over here
Closer to my skin
Let the sin begin

Won't you just supersexme
Supersexme
Supersexme
Oh talk to me sex bliss â€¦
Filthy dirty don't you leave that nothing baby
