Mmmhmhmhm  
Hmhmhmhmhm

I can see it in your eyes  
Tell me what's on your mind  
Don't keep it all inside  
I am here for you  
(I am here for you)  
Did somebody bring you down  
Turn your smile into a frown  
I'll help you work it out  
When the answer's hard to find  
I will give you peace of mind

When you need a friend to call  
I'll be right there beside you  
To shelter you and guide you  
I'll miss you candle light  
When your tear drops start to fall  
I will be there to dry them  
Before you can cry them  
On the darkest night  
I will be the light  
I will be the light  
Do do do do do do

You can share your secrets here  
There's no need to be afraid  
My love will never change  
It's unconditional  
(it's unconditional)  
Knock the door to your heart  
Knocked down and torn apart  
I'll help you make a start  
And build it up again  
Help you shine a light within

When you need a friend to call  
(when you need a friend)  
I'll be right there beside you  
To shelter you and guide you  
I'll miss you candle light

(I'll miss you candle light)  
When your tear drops start to fall  
(I will dry them)  
I will be there to dry them  
Before you can cry them  
On the darkest night  
I will be the light  
I will be the light  
Do do do do do do

Everybody's searching for somebody to believe in  
Everybody needs someone to care  
A shoulder you can cry on  
A love you can rely on  
Reach out and trust me if you can  
Just take my hand

When you need a friend to call  
(anytime you need a friend)  
I'll be right there beside you  
To shelter you and guide you  
I'll miss you candle light  
(and you can rely on me)  
When your tear drops start to fall  
I will be there to dry them  
Before you can cry them  
On the darkest night  
I will be the light  
I will be the light  
Do do do do do do

No wind  
No rain  
No storm is ever going to stand in my way  
No load is too great  
Hold on  
I'll be there to carry the weight

No wind  
No rain  
No storm is ever going to stand in my way  
No load is too great  
Hold on  
I'll be there to carry the weight
