This song was only released in Japan =(

I met you in a dream
and your piercing eyes were staring straight at me
I can't believe this feeling
You make me feel so much heat(?)
i want you always near me
is this really what it seems?

Chorus (in English):

What I, What I feel
I let you know it immediately
And Your, and your heart
Surely will be open
(more and More) I'm beginning to get confused
(more and More) it's it's suffocating
(more and More) come on here

I need you
I want You
I got to have you
This Infatuation

Love, I've finally found a new(?)
and it came to me in such a vision
Now i know i need you so
you make me burn like crazy
I really feel you baby
I see an angel in your eyes

Chorus #2 (in English):

What you're, What you're feeling
let me know it immediately
And surely, surely i will
understand you
(more and More) I'm beginning to get confused
(more and More) it's it's suffocating
(more and More) come on here

I need you

I want You
I got to have you
This Infatuation

if fire falls down from the sky
if all the rivers should run dry
if false turns out to be true
you'll know that i will find you
because our love is destiny

Chorus #2 (in English):

What you're, What you're feeling
let me know it immediately

And surely, surely i will
understand you
(more and More) I'm beginning to get confused
(more and More) it's it's suffocating
(more and More) come on here

I need you
I want You
I got to have you
This Infatuation

This infatuation
You're my love frustration

This infatuation
You're my love frustration

This infatuation
You're my love frustration

This infatuation
You're my love frustration
