[Nick]

Why did I run away I miss you like crazy
I want to go back to the happy times when there was
just me and you i still remember when you said you
said you loved me.

[Chorus]

But I wish I never let you go [let you go]
cause your stuck in my head like a song on the radio
baby please come back to me [back to me] i can't
survive without you to guide me how did i ever let you
go.

[Kevin]

Baby ive been trying to get to you but my heart is
telling me no. i just wanna be with you forever and
eternity.

[Chorus]

But I wish I never let you go [let you go]
cause your stuck in my head like a song on the radio
baby please come back to me [back to me] i can't
survive without you to guide me how did I ever let you
go.

[Joe]

But in my heart I know i did the best for you i let you go
know your free to be who you want to be. Bu i wish you
stopped me for letting you go

[Chorus]

But I wish I never let you go [let you go]
cause your stuck in my head like a song on the radio
baby please come back to me [back to me] i can't
survive without you to guide me how did I ever let you
go.
