

Jonas Brothers "Let's Go"

Visit "[Let's Go](#)" on [MotoLyrics.com](#)

In your mind, you can see it
Running towards the light
You're so close, You can feel it
Don't look back this time
Turn around, think about where you are now
Fill it up, turn it up, I wanna here it loud
Once we start, there's no way we can slow down

[Chorus:]

So lets go

Living like its now or never

Give them something to remember

If you're with me let me know, know, know

So lets go oh, oh, oh [x4]

Feel the floor, as its shaking (as its shaking)

The walls are gonna fall

Feel the rules, that were breaking (that were breaking)

We're gonna shatter them all

Turn around, think about where you are now

Fill it up, turn it up, I wanna here it loud

Once we start there is no way we can slow down

[Chorus:]

So lets go

Living like its now or never

Give them something to remember

If your with me let me know, know, know

So lets go oh, oh, oh [x4]

So lets go [x7]

[Chorus:]

So lets go

Living like its now or never

Give them something to remember

If your with me let me know, know, know

So lets go oh, oh, oh [x8]
