Young hearts, I believe if we are not far
From becoming who we truly are
Love is on its way
Dreamers, you see everything in colour
While the world is getting darker
Love is on its way

So hold on another day
'Cause love is on its way
You'll find it's gonna be ok
'Cause love is on its way
It's alright you'll find a brighter day
'Cause love is on its way

Leaders, show us how to love each other
It could help us to recover
Love is on its way
Lonely, I believe that you will find me
And together we will truly see
That love is on its way

So hold on another day
'Cause love is on its way
You'll find it's gonna be ok
'Cause love is on its way
It's alright you'll find a brighter day
'Cause love is on its way

So hold on another day
'Cause love is on its way
You'll find it's gonna be ok
'Cause love is on its way
It's alright you'll find a brighter day
'Cause love is on its way
'Cause love is on its way
'Cause love is on its way
