

Jonas Brothers "Out Of This World"

Visit "[Out Of This World](#)" on MotoLyrics.com

It was cloudy on that night
There were no stars in sight
Then the planets all aligned
When I saw her eyes
One look that's all it took
To send me to another galaxy
And she said

She was on her way to mars
When she ran into a star
And she fell into my arms
Thank you gravity
Never let her go
I'll hide her UFO
She'll never have to know
She's my space girl
And she's out of this world

We were watching Star Wars
She looked kinda bored
Said she'd seen it all before
Made me wonder even more
Which universe was her's
What galaxy does she call home yeah

She was on her way to mars
When she ran into a star
And she fell into my arms
Thank you gravity
Never let her go
I'll hide her UFO
She'll never have to know
She's my space girl
And she's out of this world

She says the moon is overrated
Jupiter's her favorite
And Pluto can't hang
Like meteor, I'm falling
From the first that I saw her
It was heaven on earth

She was on her way to mars
When she ran into a star
And she fell into my arms
Yeah
Never let her go
I'll hide her UFO
She'll never have to know
She's my space girl
And she's out of this world

Yeah

She was on her way to mars
When she ran into a star
And she fell into my arms
Thank you gravity
Never let her go
I'll hide her UFO
She'll never have to know
She's my space girl
And she's out of this world
