Empty words  
Empty promises  
Empty hearts  
Not a word has spoken  
Show me that I'm not cut out  
For the role of the entertainer  
'Cause I'm really not that loud

(Chorus)  
Too much to do and too little time  
Fix it now before it isn't right  
Pick up the clock and mend the broken hand  
All we gotta do is just believe  
That time is on our side

No one knows  
No one ever cares  
How can we  
Fix a broken heart  
Show me that I'm not cut out  
For the role of the entertainer  
'Cause I'm really not that loud

(Chorus)  
Too much to do and too little time  
Fix it now before it isn't right  
Pick up the clock and mend the broken hand  
All we gotta do is just believe  
That time is on our side

Time is on our side

(Chorus)  
Too much to do and too little time  
Fix it now before it isn't right  
Pick up the clock and mend the broken hand  
All we gotta do is just believe  
That time is on our side
