(Steve Balsamo/Jonatan Cerrada/Ben Robbins)

Don't ever give up, sometimes the road is long
Don't ever give up if you feel your fight is gone
Remember when the rain is falling, the sky is turning
blue
Don't ever give up on me and you

I still believe you are the one, I still believe our dream
will come
I still believe love will find a way
If you believe in who I am, come on baby, take my hand
Don't give up, 'cause love won't let us down

Won't ever give up 'cause I know the real thing
I won't ever give up when my soul is trying to sing
Remember when the tears are falling, it could be
because of love
I won't ever give up on what we have

I still believe you are the one, I still believe our dream
will come
I still believe love will find a way
If you believe in who I am, come on baby, take my hand
Don't give up, 'cause love won't let us down

But you can say the prayer 'cause I know heaven is
right here
Deep inside I know you still believe...

Don't ever give up, sometimes the road is long
Won't ever give up even when my fight has gone

I still believe you are the one, I still believe our dream
will come
I still believe love will find a way
If you believe in who I am, come on baby, take my hand
Don't give up, 'cause love won't let us down
I still believe that you are the one.
