What you don't know wont hurt you.
Maybe their lies are true.
Try and remember, try to forget those yesterdays
beatings too.

You'll never see me coming.
You'll never know my name.
Try to remember try to forget but you'll never be the
same.

I can do anything
I can go anywhere
I can be anything
For anyone
Tonight.
I can do anything (just let me sleep for a little while)
I can go anywhere (just wanna sleep for a little while)
I can be anything (just wanna sleep for a little while...)
For anyone
Tonight.

I'm already going.
I'm already gone
There's a stranger in my place
You'll never find me
But I'll get along
Cause the angels know my face.
