You never turn away, from the broken hearted,  
Or the ones who stray from your love  
I know we hurt you so living life out of control,  
Still you're there, still you care

(Chorus)

Your lover never fails, your love never fails  
It's like a heaven so high, it will never die  
Love never fails your love never fails  
It's like a river, oh the river that flows from you  
Oh oh oh, da da da da da da

(Verse2)

Always patiently, you're patient with me  
Your gentle ways of letting me know  
And tho I can see, the dangers in front of me  
I feel you near, your presence here

(Chorus)

Your lover never fails, your love never fails  
It's like a heaven so high, it will never die  
Love never fails your love never fails  
It's like a river, oh the river that flows

Your presence lord, your power lord and  
Your love fills the air

Your lover never fails, your love never fails  
It's like a heaven so high, it will never die  
Love never fails your love never fails  
It's like a river, oh the river that flows

(Repeat)
