Wave goodbye, feeling the distance  
Home's where the heart is, but I've got to go  
And my faith, hopelessly persistent  
Now I believe, you're part of my soul  
This lonely town, is tellin' me tonight  
I'd be a desperate man, without you in my life

All in a whisper, sending a prayer  
I wish that I was there with you  
Maybe tomorrow, I'll wake you'll be there  
But it's just wishful thinking, you know that I care  
Cause when the lights go down, and I'm all alone  
Wish than I was there, I wish that I was there with you  
Oh baby, now with you

Close my eyes, imagine your near me  
Caught in moments memories of you  
How are you? Are you missin' me baby?  
Cause I know what it feels like, to be lonely for you  
My empty heart is telling me tonight  
I'd be a crazy man, to lose you in my life

All in a whisper, sending a prayer  
I wish that I was there with you  
Maybe tomorrow, I'll wake you'll be there  
But it's just wishful thinking, you know that I care  
Cause when the lights go down, and I'm all alone  
Wish than I was there, I wish that I was there...baby

All in a whisper, sending a prayer  
I wish that I was there with you  
Maybe tomorrow, I'll wake you'll be there  
But it's just wishful thinking, you know that I care  
Cause when the lights go down, and I'm all alone  
Wish than I was there, I wish that I was there, baby
