I get up early when the sleeping pill wakes me  
I take a wake up pill and fill with energy  
I power on hard and I check my messages  
But I don't have any messages  
I take a driving pill and head to my car  
I drive around a bit cuz work isn't very far  
I call my phone and I check my messages  
But I don't have any messages

All I know is driving on drugs feels better when they're  
prescription  
All I know is the world looks beautiful, the world looks  
so damn beautiful

And I feel fantastic  
And I never felt as good as how I do right now  
Except for maybe when I think of how I felt that day  
When I felt the way that I do right now, right now, right  
now.

And I feel fantastic  
And I never felt as good as how I do right now  
Except for maybe when I think of how I felt that day  
When I felt the way that I do right now, right now, right  
now.

Work is anything but quiet these days  
I try to medicate my concentration haze  
I can feel the day unfold in front of me  
So I take the stairs and hit the gym  
The phone is ringing when I get to my desk  
What was a stinging's now a sharp pain in my chest  
So I take a Calminex and just chill  
And then it's time for lunch again

All I know is work is easy when you don't stress out  
about deadlines  
All I know is I take my medicine I always take my  
medicine

And I feel fantastic

And I never felt as good as how I do right now

Except for maybe when I think of how I felt that day  
When I felt the way that I do right now, right now, right now.

And I feel fantastic

And I never felt as good as how I do right now  
Except for maybe when I think of how I felt that day  
When I felt the way that I do right now, right now, right now.

Sometimes I'd like to slow things down  
Enjoy the moment  
But when I look the moment's gone

Work is over but I can't stay to work late  
Got to leave and get ready for my second date  
With a pretty girl that I met at the pharmacy  
Right in the prescription line  
I take a pill for my social anxiety  
I get a table and a nice bottle of chablis  
Now it's getting late and there's still no sign of her  
I have another glass of wine

All I know is the wine lasts longer when you don't gotta  
share it with someone  
All I know is my steak tastes better when I take my  
steak tastes better pill

And I feel fantastic

And I never felt as good as how I do right now  
Except for maybe when I think of how I felt that day  
When I felt the way that I do right now, right now, right now.

And I feel fantastic

And I never felt as good as how I do right now  
Except for maybe when I think of how I felt that day  
When I felt the way that I do right now, right now, right now.
