Last week I left a note on Laura's desk
It said I love you signed anonymous friend
Turns out she's smarter than I thought she was
She knows I wrote it, now the whole class does too
And I'm alone during couple skate
When she skates by with some guy on her arm
But I know that I'll forget the look of pity in her face
When I'm living in my solar dome on a platform in
space

Cause it's gonna be the future soon
And I won't always be this way
When the things that make me weak and strange get
engineered away
It's gonna be the future soon
I've never seen it quite so clear
And when my heart is breaking I can close my eyes and
it's already here

I'll probably be some kind of scientist
Building inventions in my space lab in space
I'll end world hunger I'll make dolphins speak
Work through the daytime, spend my nights and
weekends
Perfecting my warrior robot race
Building them one laser gun at a time
I will do my best to teach them
About life and what it's worth
I just hope that I can keep them from destroying the
Earth

Cause it's gonna be the future soon

And I won't always be this way
When the things that make me weak and strange get
engineered away
It's gonna be the future soon
I've never seen it quite so clear
And when my heart is breaking I can close my eyes and
it's already

Here on Earth they'll wonder

As I piece by piece replace myself
And the steel and circuits will make me whole
But I'll still feel so alone
Until Laura calls me home

I'll see her standing by the monorail
She'll look the same except for bionic eyes
She lost the real ones in the robot wars
I'll say I'm sorry, she'll say it's not your fault
Or is it?
And she'll eye me suspiciously
Hearing the whir of the servos inside
She will scream and try to run
But there's nowhere she can hide
When a crazy cyborg wants to make you his robot bride

Well it's gonna be the future soon
And I won't always be this way
When the things that make me weak and strange get
engineered away
It's gonna be the future soon
I've never seen it quite so clear
And when my heart is breaking I can close my eyes and
it's already here
