Tonight I'm all alone in my room
I'll go insane if you won't sleep with me
I'll still be with you
I'm gonna meet you on the astral plane
The astral plane for dark at night
The astral plane or I'll go insane

Well I don't see you and it's getting dark
Today we should have gone to Central Park
Well don't you want to see me ever again?
If not I'll meet you on the astral plane
The astral plane for late at night
The astral plane or I'd go insane

Well we've known each other from other lives
I want to see you today
But I'll prove my knowledge of what's inside
When I intercept you on the astral plane
The astral plane for late at night
The astral plane or I'll go insane
Alright

Well I don't see you and it's getting dark
I'd have a lot to say
But you're not the one that I can say it to
At least not today
Oh, well I don't remember it afterwards
I don't yet know the words!
But I know we've been together just this week
We've been together on the astral plane
The astral plane for late at night
The astral plane or I'd go insane

Tonight I'm all alone in my room
I'll go insane if you won't sleep with me
I'll still be with you
I'm gonna meet you on the astral plane
The astral plane for dark at night
The astral plane or I'll go insane
