Here come the Martain Martians,
And I wouldn't be surprised if they were riding on their
Martian bike.

And we have to find out right now
What kind of flavor do these Martians like.

Here come the Martian Martians
And they're riding on their Martian bike
Well, we have to find out right now
What kind of ice cream do the Martians like?

Why staying in such a cheap hotel?
Maybe we should help out the Martians
