Everybody wants to feel happy, even if you think that
you don't

Everyone wants to know the secret, even if you think
that you don't

Everybody thinks they're different from the next man
now

But we just got to realize we're just the same

Always appear to be someone better

You know there will always appear to be someone
worse

You know there'll always appear to be someone better

You know there'll always appear to be someone worse,
oh

Everyone has got their character

Everyone has got their personality

But the longing is still the same

So what is the answer by easy on yourself

Make yourself feel at ease maybe that's the answer

Always appear to be someone better

You know there will always appear to be someone
worse

Always appear to be someone better

You know there'll always appear to be someone worse,
oh

We're just the same don't you know

We're just the same don't you know

Looking over there

He looks different, she looks different

They might even be different

But we're just the same, don't you know

We're just the same, don't you know

We're just the same
