I was standing  
On one of the Seine bridges  
Saying goodbye to  
Lydia Tracy  
When the news broke  
That we had been used + abused  
Since money began  
To some it's kinda rude  
To refuse  
The bootleg version  
Of an act of love  
Blufunk individuals  
Can change that phrase to bribery  
Change that phrase to bribery  
Change that phrase  
Chorus  
Because the wisdom  
Behind the smile  
Is called "Cash"  
I know that money lies to me  
It's freedom on paper  
But nobody's free  
You know it's gonna kill for me  
To see so many people diggin  
"The bootleg version"  
Money bleeds  
Greed is a need  
Only to those  
Only to those  
Only to those you can't afford it  
They're diggin the bootleg version  
Chorus
