James [Incomprehensible]

Slid up in the AMG
Satellite radio, you next to me
Legs like Nestle, they constantly test me
I'm clear that the rest be trying to out fennese me
But love is real, I can tell how it feels
Say what you want but keep your lips sealed
You can run your mouth, talk extra slick
And strip in front of the plasma, yes, it's sickening

Uh, belly dance for your man, make eye contact
Make the playa react
In fact crawl on the bed while ya man's laid back
Run ya pedicure across my six pack
Hold my dice, baby, roll for ice
You free to move around, I won't control ya life
I just keep ya heated
Treat ya how ya wanna be treated
You got an appetite for love, I'll feed it

Like my favorite scene in the best movie
Like the air that I breathe
That's what she is to me
Like a song I just wrote or like coming home
When I've been gone too long
That's what she does to me

I wanna always have this feeling
Oo, your love is so amazing
Tell me, tell me, tell me baby
Tell me that you'll never go

She's the light the sun would bring
Everything that means anything to me
That's what she is
And she's so heavenly
She's how the world looks just
Someone who has never seen it
That's what she is

Like a lover's heart when you first fall in love

And girl, it means so much when you're out of touch
It's like seeing you for a moment or two
Girl, the thought of you is what gets me through

I wanna always have this feeling
Oo, your love is so amazing
Tell me, tell me, tell me baby
Tell me that you'll never go

She's the light the sun would bring
Everything that means anything to me
That's what she is
And she's so heavenly
She's how the world looks just
Someone who has never seen it
That's what she is

What she is to me
I don't think that words can describe
Exactly how you make me feel inside
Never in my life have I been so in love

She's the light the sun would bring
Everything that means anything to me
That's what she is
And she's so heavenly
She's how the world looks just
Someone who has never seen it
That's what she is

She's the light the sun would bring
Everything that means anything to me
That's what she is
And she's so heavenly
She's how the world looks just
Someone who has never seen it
That's what she is

So good, so good
Yeah yeah
Little baby, baby, baby, baby, baby
You got it girl
