"Burn It Down!"

Wake up, do you hear the sound of music from above?
Our city sits upon the glow of a bomb
The fire is thick, the flame is hot, like it or not
Gonna burn this mother down!
Gonna burn this mother down!

Remember, all the money that you burn will never pay
For you to scream for your life and run away
The fire is thick, the flame is hot, like it or not
Gonna burn this mother down!

Honey, don't think that we're gonna be alright?
Honey, don't think that we're gonna be alright?
'Cause it's coming and I swear it's out to take our lives
It's gonna take our lives
Gonna burn this mother down!

Gonna burn this mother down!

Honey, don't think that we're gonna be alright?
Honey, don't think that we're gonna be alright?
'Cause it's coming and I swear it's out to take our lives
'Cause it's coming and I swear it's out to take our lives

Honey, don't think that we're gonna be alright?
Honey, don't think that we're gonna be alright?
'Cause it's coming and I swear it's out to take our lives

We've gone to find our way home
Wherever that might be
Wherever that might be
