"Imagination"

Visit "[Imagination](#)" on MotoLyrics.com

Could it be I'm stuck in a world repetition?
With people pretending they're so in love
Could it be I found my way out of this one?

'Cause all I ever do is sleep
Come take me now
Ah, you make me want to
Use my imagination
Use my imagination

Could it be I'm here but I was never breathing?
Love was running, running in circles around my head
Could it be my lungs won't take what they're given?

'Cause all I ever do is sleep
Come take me now
Ah, you make me want to
Use my imagination
Use my imagination

All I want to do is believe I've got you
Even if it's never going to be enough to
All I want to do is believe I've got you now
[Incomprehensible]

'Cause all I ever do is sleep here
And use my imagination
Use my imagination
Use my imagination
Use my imagination

We can imagine
Use my imagination

All I want to do is believe I've got you
Even if it's never going to be enough to
All I want to do is believe I've got you now

Use my imagination
