They got the raddest hooks
They got the dopest looks
And when they're misunderstood it's even better
And they all agree
The future ends with me
On their computer screens
Like they even...

Matter to the words we sing
Or feel apart in our melodies
If all you have is yourself, you're never going to need
anyone else

Popularity- Do you think it's scary?
Everybody's talking with their own opinion
Popularity- It's a lot to carry
I'll fall asleep to you screaming in my brain

Float into a room
I feel the attitude
When I'm all alone it's even better

Ty drops a line
We all fall right in time
When you sing along, that's when we know you...

Matter to the words we sing
Or feel apart in our melodies
If all we have is ourselves, you're never going to need
anyone else

Popularity- Do you think it's scary?
Everybody's talking with their own opinion
Popularity- It's a lot to carry
I wake up to you screaming in my brain!

Popularity... i keep on keeping but everyone's dying for
their own opinion
Popularity- Yeah I think it's scary
I'll fall asleep to you screaming at my brain
