How does it feel?
Writing songs on a rainy day
And how does it feel?
When someone comes and takes them away

How does it feel when the words just won't flow?

How does it feel?
When there's stars in our winter sky
And how does it feel?
You close your eyes and believe you can fly

How does it feel living life on a high
Or just trying to get by?

Don't run and hide
Nobody's searching

Don't try to walk away or step aside
You've been living life passing time
So, let it shine

Hey, there's a moment waiting
And, hey, hear the voices singing a song
For the future
There's inspiration when you close your eyes

How does it feel?
How does it feel?

How does it feel?
You're waiting at the start of the show
How does it feel when the lights go down low
And time moves so slow?

Don't run and hide
Nobody's searching

Don't try to walk away or step aside
You've been living your life on the line
So, let it shine
