A thousand people here but I'm alone
My only friend is my dad's radio
Seventeen feels like I'm thirty four
How do I get myself up off the floor?
I need a cure

Happiness and misery
I'm up and down, so confused
I want to scream
But there's nobody listening

Stop the war inside of me
Pull the plug, kill the lights
I can't break free
It's happiness or misery

I wish the clouds would all come out today
Send the rain and wash it all away
Am I going crazy? I don't know, oh
I wonder will anybody miss me if I go?
Oh, oh, oh, oh

Happiness and misery
I'm up and down, so confused
I want to scream
But there's nobody listening

Stop the war inside of me
Pull the plug, kill the lights
I can't break free
It's happiness or misery

Oh, happiness and misery
I'm up and down, so confused
I want to scream

Stop the war inside of me
Pull the plug, kill the lights
I can't break free
Happiness or misery
