We walked away
Before we said goodbye
That ain't right baby, no

I always thought
We'd stand the test of time
I was wrong, baby

When the lights
In the house all go out
I get lonely, how 'bout you?

Every time
The phone rings
I hope it's you calling

We could work it out
Forget this all somehow
Start over again

It's our love on the line
We should try baby, try
I know we can make it

If we both take a chance
If we try baby, try
'Cause we've got
Too much to lose

Too many days
Without your smiling face
I can't take it, baby

I pretend
That I'm feeling fine
But I'm fakin'

Words just can't describe
Honey how I'm feeling inside
Got to remember

It's our love on the line

We should try baby try
I know we can make it

If we both take a chance
And we try baby, try
'Cause we've got
So much to lose

Every day that goes by
I wish I could
Somehow get you
To understand

I figure if you remember
How good we were together
That you'll want
To be with me again

We've got to try
We've got to try

Words just can't describe
How I need you in my life

It's our love on the line
We should try baby, try
I know we can make it

If we both take a chance
If we try baby, try
You've got to remember I love you

We should try baby, try
Baby don't forget
It's our love on the line
So we should try

Oh, we've got to get back
To where we were
In the past, baby
Will it really matter?

We've got to try
We've got to try
Listen, listen here
We've got to try

There's no one in the world
I need more right now
We've got to try
