Written by gwendolyn collins
Performed by jonny lang
Of the album lie to me
Oh, there's got to be a change
Things just can't stay the same
If I got any worse off
I'd have myself to blame

I've played the blues so long now
There ain't nothin' left for me to do
I just can't give it up
If I do my life would be through
Well now I've been to kentucky, chicago too
All over st. louis, ain't nothin' left to do, baby
But I'll play the blues for you, yes I will
Well I've been down to texas
To the international revenue

I ain't got no money now, honey now
Ain't nothin' left to do
Well I'll play the blues for you
