Verse One

Met this chick the other day
And I knew that she was into me
So I asked her secretly
Are you coming, are you coming?
But she acted so confused
Like she didn't know what to do
So I asked her one more time
Are you coming, are you coming home?

Pre Chorus

Play the field and you'll see that I've got all you could
need
You'll never find someone as good as me
And I know if you try that I'm gonna be that guy
And there's no way that you'll disagree

Chorus

And I like the things you do
Cause you know I'm feelin' you
It's like a rollercoaster
Each day we're a little closer
And I like how you play the game
Cause I know you feel the same
Over and over
We get a little closer

Verse Two

Now we've spent a little time
She's the first thing on my mind
And I'm gonna make her mine
Are you coming, are you coming?
Said she wants to take it slow
But she'll go where I wanna go
Week or two, I just don't know
Are you coming, are you coming home?

Pre Chorus

Play the field and you'll see that I've got all you could
need
You'll never find someone as good as me

And I know if you try that I'm gonna be that guy
And there's no way that you'll disagree

Chorus

And I like the things you do
Cause you know I'm feelin' you
It's like a rollercoaster
Each day we're a little closer
And I like how you play the game
Cause I know you feel the same
Over and over
We get a little closer

Bridge

And now she says it's time
She leans in and says that I
Can do whatever's on my mind
Our bodies move a little closer
And it's like a fantasy
All the things she does to me
She says she's here to please
And now I feel we're so much closer

Chorus

And I like the things you do
Cause you know I'm feelin' you
It's like a rollercoaster
Each day we're a little closer
And I like how you play the game
Cause I know you feel the same
Over and over
We get a little closer

Outro

Now we're a little closer
W-we're a little closer
Her clothes were thrown all over
And we're a little closer

Chorus

And I like the things you do
Cause you know I'm feelin' you
It's like a rollercoaster
Each day we're a little closer
And I like how you play the game
Cause I know you feel the same
Over and over
We get a little closer
