Intro

Oh, for you baby

Verse One

Lately I've been looking for someone who
Could maybe someday be the one I turn to
And there's a way that you could be
The one I'm searching for
So baby oh, I gotta know
'Cause I can't take this anymore

Chorus

And now I can see the truth
There's no questioning
I know I'm right for you
I, I, I can be
Why can't you see that
Everything's for you?

Hook

I, I, I
Hey, hey
I, I, I
For you
I, I, I
Hey, hey
Everything's for you

Verse Two

Maybe you could give me the chance to be
And baby I know I can make you happy
So tell me what I've gotta do
So I can be with you
I'm done with all the games I played
You know I did it for you babe, oh

Chorus

And now I can see the truth
There's no questioning
I know I'm right for you
I, I, I can be

Why can't you see that
Everything's for you?

Hook
I, I, I
Hey, hey
I, I, I
For you
I, I, I
Hey, hey
Everything's for you

Bridge
If you need time, that's fine
Go take a while to decide
If you'd agree that you want to
I know I'd be right for you
So take this chance and we
Could be together all our lives
'Cause baby I ('cause baby I)
I know what we're meant to do, oh

Chorus
And now I can see the truth
There's no questioning
I know I'm right for you
I, I, I can be
Why can't you see that
Everything's for you?

Chorus
I see the truth
There's no questioning
I know I'm right for you
I, I, I can be
Why can't you see that
Everything's for you?

Hook
I, I, I
Hey, hey
I, I, I
For you
I, I, I
Hey, hey
Everything's for you
