Verse One

I guess I'll never understand the reason
Why you're leaving me here all alone
Baby tell me when you lost the feeling
And why did you take so long to make your feelings
known?

Pre Chorus

Where did we go wrong?
What made you wanna leave?
Should've known it all along
How could I have been so naive?

Chorus

So much for the love we shared
So much for thinkin' that you cared
And oh, oh
I don't know where to go
So much for the time we spent
So much for what we could have meant
I'll make it through
So much for me and you
Oh, oh

Verse Two

We could have ended up so differently
If you had given me some time to change
It could have ended with you here with me
But I guess that you decline, so won't you please
explain?

Pre Chorus

Where did we go wrong?
What made you wanna leave?
Should've known it all along
How could I have been so naive?

Chorus

So much for the love we shared
So much for thinkin' that you cared
And oh, oh

I don't know where to go
So much for the time we spent
So much for what we could have meant
I'll make it through
So much for me and you
Oh, oh

Bridge

I wish that we could work it out
But that's not what you're about, oh no
It's all so different now
I wish that we could make it through
But that's not what you wanna do, oh no
So I guess it's back to...

Chorus

So much for the love we shared
So much for thinkin' that you cared
And oh, oh
I don't know where to go
So much for the time we spent
So much for what we could have meant
I'll make it through
So much for me and you
Oh, oh
