Your rattling my words like an earthquake
I'm up in the clouds like ooooo
Somebody bring me down (yeah)
I'm trying to give you... what it feels babe
But I don't know how to do ooo
I'm losing solid ground (yeah)

[Chorus]

Don't pitch me
I am falling in love
And if I am dreaming this
Baby, don't wake me up
You got me hoping, wishing
That this could last one more night
Baby you and me
We can take it to the middle of the dance floor
Hey, I got what you need
Tell the DJ keep it spinning on the dance floor(dance
floor)
Let's go higher (lets go higher)
Let's go high
Let's go higher (lets go higher)
Let's go high

You could set it off if you want it
All you gotta do is ooooo
Your bodys calling me (yeah)
And I don't want to have any regrets
When I'm next to you is like ooooo
Your touch is all I need (oh yeah)

Chorus

Let the roller-coaster take me up and let me fall
Just as long as your by my side I'll go through it all

Chorus
