Mmmm,
Working day and night in overdrive
But it feels like I've been livin' someone else's life
Always at the wrong place most the time
So I'm lookin' for someone who makes me feel alive
Here we go,

I walked right into the place
The first thing I saw
Was a smile on her face, yeah
I'm wasting no time at all
I found a way coz you were the one who said
"Get up on the floor"

(Chorus)
Give it to me like that, that, that
Baby when you shake it like that, that, that
You make me wanna work it like that, that, that
When you give it to me like that, that, that

I wanna get it on like that, that, that
Baby when you shake it like that, that, that
You make me wanna take it like that, that, that
Make it when you hold me
Give it to me baby, I wanna get it on like that

Mmmm, ohh
Been like forever since you put it down
Since you came into my life
And turned my world around (turned my world around)
I can't wait to see her finest game
So I'm going back to where she fits in, dissapear,
Whoa-oo

I walked right into the place (I walked right in, the girl's
right there)
First thing I saw (first thing I saw)
Was the smile on her face(smile on her face)
I'm wasting no time at all
I had stop, coz she looked nice and she
Walk into my life

Why you do me like that, that, that
Baby when you shake it like that, that, that
You make me wanna work it like that, that, that
When you give it to me like that, that, that

I wanna get it on like that, that, that
Baby when you shake it like that, that, that (baby, oh)
You make me wanna take it like that, that, that (make
me wanna)
Make it when you hold me
Give it to me baby, I wanna get it on like that

(Oooh) I just can't let you go like a fool
My playin' days are numbered, baby
I'm movin to you
Oh, and I know that you're feelin' the same
You wouldn't move like you do
Coz I got to have you with me some way
Yeah, yeah, oh, baby no no
Cmon, (whoo) hey yeah
Give it, shake it, baby, oh yeah

(repeat chorus) x2

oh, oh
oh ooh
