Maybe you don't know
How you live in my dreams my dreams
Something about your smile
Starts the butterflies inside me
Baby you don't see
The 2 of us like I do I do
No one wants you more
Than this dreamer standing right beside you

(chourus)
Whatever it takes
I'm taking it all the way
Now there's nothing left to do (? ? not sure about that
line)
Never gonna find me a better day
Never gonna love any other way
Baby my heart's saying now
Hopin' and a waitin'
For the right time
Prayin' for the words
That'll make you mine
Baby I'm shaking
But my heart is saying now

When I think of you
My heart takes a tumble tumble
If could ever wish
The walls around your heart would crumble
I've waited for so long
Until the perfect moment came along
Don't let me be invisable
Tell me girl, is it me you really want?

(chourus)
Whatever it takes
I'm taking it all the way
Now there's nothing left to do (? ? not sure about that
line)
Never gonna find me a better day
Never gonna love any other way
Baby my heart's saying now

Hopin' and a waitin'
For the right time
Prayin' for the words
That'll make you mine
Baby I'm shaking
But my heart is saying nowv

Tell me now
(my baby)
I need to know...
(you drive me crazy)
At night...
(I think about you)
Now I'm telling you
Telling you the way that I feel
Cause I know it's for real.

(chourus)
Whatever it takes
I'm taking it all the way
Now there's nothing left to do (? ? not sure about that
line)
Never gonna find me a better day
Never gonna love any other way
Baby my heart's saying now
Hopin' and a waitin'
For the right time
Prayin' for the words
That'll make you mine
Baby I'm shaking
But my heart is saying now
