### Intro

When I said that we were through  
That's what I wanted us to do  
(You're out of my mind now)

### Verse One

Do you remember  
What you had said to me that night?  
Do you remember  
All the lies that you tried to hide?  
Do you remember  
You said you'd never do me wrong  
Do you remember  
Now I'm leaving baby I am gone

### Pre Chorus

You can't be true if I want you to  
I can't rely, that's why

### Chorus

When I said that we were through  
(When I said to you)  
That's what I wanted us to do  
(Oh baby)  
I am tired of the lies, you're gone  
I'm leaving you behind  
You're out of my mind now

### Verse Two

Girl I remember  
When our relationship began  
Girl I remember  
How you said I was your man  
But now it's over  
There's no way I'll stay with you  
Cause I can't be with someone who's  
Always gonna be untrue

### Pre Chorus

You can't be true if I want you to

I can't rely, that's why

Chorus

When I said that we were through  
(When I said to you)  
That's what I wanted us to do  
(Oh baby)  
I am tired of the lies, you're gone  
I'm leaving you behind  
You're out of my mind now

Bridge

Now it's too late  
To change what has happened here  
And now I fear  
Now you regret  
I bet that you want me back  
There's no way I'm going through with that

Chorus

When I said that we were through  
(When I said to you)  
That's what I wanted us to do  
(Oh baby)  
I am tired of the lies, you're gone  
I'm leaving you behind  
You're out of my mind now

Chorus

When I said that we were through  
(When I said that we were through)  
That's what I wanted us to do  
(That's what I wa-wa-what I wanted)  
I am tired of the lies, you're gone  
I'm leaving you behind  
You're out of my mind now
