Hello, let me introduce myself  
I've been around the world like no one else  
And I got one question (what?)  
Where have all the good guys gone?

I've searched the way cool, ordinary, legendary kinds  
I've been temporarily healed by all those all of you lies  
Come on swear (swear!)  
Where have all the good guys gone?

I can almost picture you  
You're comin' to my rescue  
Oh man, well I think I love you

They wanna touch me  
They wanna heal me  
They wanna make me feel like nobody else  
I'm better rock now  
Dancing with myself  
They wanna take me  
And try to claim me  
It always feels so right and ends up so wrong  
Somebody show me  
Where have all the good guys gone? (where have all  
the good guys gone?)

Come on love me now or love me not  
Waiting in the sun I get so hot, hot, hot, hot, hot

I wanna have some fun  
Don't run baby, don't run  
Come on, come on, come on, come on, come on  
There's voodoo in the air  
And you're not even there  
But that's so strong

I got my iPod blastin' out our favorite song  
But in 24/7 you could be gone  
Now that ain't right  
(yeah yeah yeah yeah yeah!)

I been looking so hard for a brand new thing  
I am so so solo if you know what I mean  
And just like mama said  
Where have all the good guys gone?

They wanna touch me  
They wanna heal me  
They wanna make me feel like nobody else  
I'm better rock now  
Dancing with myself (yeah yeah yeah)  
They wanna take me  
And try to claim me  
It always feels so right and ends up so wrong  
Somebody show me  
Where have all the good guys gone? (where have all  
the good guys gone?)

Ba ba ba ba ba ba [repeat]
