[Verse 1]

It was a Thursday afternoon
When you told me that you'd be going away to school
I couldn't think of what I should say
Because with you I'm so happy that your leaving me
Oh

[Bridge]

And I don't want to hold you back
I just want to love you back
I don't want everyone to forget
The love that we shared

[Chorus]

And promise me, you'll never forget me
Promise me, the feelings will stay the same
And promise me that our love is everlasting
Boy all I need is you to promise me

[Verse 2]

I never thought there would come a day
That we would be going our separate ways baby
But even now you won't be here with me
I want you to know
That you're the only love that a girl could ever need

[Bridge]

And I don't want to hold you back
I just want to love you back

I don't want everyone to forget
The love that we shared

[Chorus]

So promise me, you'll never forget me
Promise me, the feelings will stay the same
And promise me that our love is everlasting
Boy all I need is you to promise me

Boy all I need to know is that I have your heart for
everything
And all that really matters is that your the love I want

for me
Hope we remain and be together boy
And I don't care I'll wait forever boy
If you do what gain

[Chorus]
Promise me, you'll never forget me
Promise me, the feelings will stay the same
And promise me our love is everlasting
Boy all I need is you and I promise me

Promise me, feelings will stay the same
And promise me that our love is everlasting
Boy all I need is you to promise me
