"You Can Talk"

Visit "[You Can Talk](#)" on MotoLyrics.com

Hey!
Yeah!

Don't give up so easy
Don't get frustrated yet with me
Oh, oh
You're not sure if I like you
There's so much more that you can't see
That you can't see

Did you think that all you'd have to do was smile?
Wrap me 'round your finger? Well that ain't my style
Want me to tell you everything I really feel?
Come on, convince me

You can talk me into it
Oh baby take another try
Give me half a reason to think
That you're not just like every other guy
You can talk me into it
Oh tell me what you see in me
Say it like you mean it
'Cause I could fall so hard, make me believe
You can talk me into it

Yeah (make me believe)
Convince me

You don't know just how close
You are to finding out the truth
Oh, oh
So just dig a little deeper
It's worth your time I promise you
I promise you

I can see you're just about to pack it in
You think my heart is cold but you don't understand
I only keep a secret 'til the time is right
And I'm not there yet

You can talk me into it

Oh baby take another try
Give me half a reason to think
That you're not just like every other guy
You can talk me into it
Oh tell me what you see in me
Say it like you mean it
'Cause I could fall so hard, make me believe
You can talk me into it

I've got so much to give
You don't know what you'll miss
If you walk away from this
You can talk me into it

Yeah yeah yeah (yeah, convince me, just wait, you'll
see)
You can talk me into it
Come on
Come on now

Did you think that all you'd have to do was smile?
Wrap me 'round your finger? Well that ain't my style
Want me to tell you everything I really feel?
Come on, convince me
You can talk, you can talk, you can talk

You can talk me into it
Oh baby take another try (another try)
Give me half a reason to think
That you're not just like every other guy
You can talk me into it
Oh tell me what you see in me (what do you see, yeah)
Say it like you mean it
'Cause I could fall so hard, make me believe (oh fall so
hard)
You can talk me into it

Yeah
Take another try
Take another try
Convince me
You can talk me into it
