I want to ride with you across the sky  
With every breath fulfill this heart of mine  
I want to hold you in my arms tonight  
A love like ours can score as eye as the sunrise

It doesn't matter if I'm feeling low  
I think of you and my mind starts to blow  
I want to show you how I feel tonight  
Just knowing now your near makes everything alright

I want to ride with you  
Out to the stars and back again  
One look into your eyes will send me across the sky

I want to be with you  
Nothing can take me from yourself  
I dream of holding you as we ride across the sky

Imagine for a moment, tumbling in the forest  
Down and down we go, this is how we know  
Now he's slipping side ways, \_\_\_\_\_

Sail across the sky, we share this love of ours  
Taken on the wind, we can change directions  
Here we go again, never haunted mind

We dance just for a moment, running in the tree tops  
Dancing as we go, this is how we know  
Now a time is coming  
Not left desiring

Sail across the sky, we share this love of ours  
Taken on the wind, we can change directions  
Here we go again, never haunted mind

Tumble through the trees, we're not left desiring  
Across the sky, we run  
tumble trough the trees, we go slipping sliding  
Across the sky, all we've ever known

I want to ride with you

Out to the stars and back again  
One look into your eyes will send me across the sky

I want to be with you  
Nothing can take me from yourself  
I dream of holding you as we ride across the sky

Across the sky...
